

# Ananya Acharya

I am Ananya Acharya, a final-year architecture student at the School of Planning and Architecture (SPA), Bhopal. With a passion for transforming ideas into tangible spaces, I am dedicated to pushing the boundaries of architectural design. My academic journey has honed my skills in creating innovative, sustainable, and user-centric designs that respond to both the physical and cultural context of a site.

In addition to my architectural studies, I find great joy in creating digital art. This creative outlet allows me to experiment with colors, forms, and textures in ways that inform and enhance my architectural projects. As I continue to navigate the dynamic field of architecture, I am eager to merge my technical knowledge with my artistic vision to contribute to projects that inspire and elevate the human experience.
